

CLARI

20 Action Research Assistance Application

The Action Research Assistance Fund is a program of CLARI. This funding has been established to support opportunities for increased engagement between community agencies and post-secondary faculty and students within the CLARI partnership. The priority of this funding program is on responding to community generated needs. Community organizations, rather than academic partners, are expected to establish project goals.

PRINCIPLES Supported projects will align with the following principles guiding CLARI's work:

- Awarded projects will fit within the CLARI mission by a) supporting community-led research through the interaction of Nova Scotia post-secondary institutions with public and social serving agencies, and b) supporting the opportunity for students in partner institutions to have innovative experiences in community-based research projects.
- The research need will be defined by and originate from the community organization, rather than the academic partner. The academic partner has the capacity to address the research need.
- The community organization must have the capacity to produce tangible benefits from the research results.
- The project should have the potential for future external funding and/or future collaboration with CLARI partners.

ELIGIBLE COSTS Eligible costs up to \$7500 include student time and reasonable expenses for consumables (for example, database access, travel). When granted, the assistance will be awarded to the CLARI faculty member identified on the Request for Support form.

FINDING FACULTY SUPPORT Where community agencies have not already identified faculty as collaborators, CLARI staff and partners will support their identification.

MORE INFORMATION For more information or to submit an application, contact Ray MacNeil, CLARI Network Manager at ray.macneil@smu.ca.

CLARI is a partnership of post-secondary institutions in Nova Scotia whose mission it is to support community-based research through the interaction of Nova Scotia post-secondary faculty and students with other public institutions and social serving agencies.
